Tanks, vehicles and means of transport, Weapons and ammunition, Aircraft, Fire-fighting and services, Security equipment and services, Security and protection of persons

WHAT WAS SAID ABOUT THE FAIRS

Lubomír Metnar

Minister of Defence of the Czech Republic

This fair, held in Brno, is a sanctuary of new technologies and support not only for the defence and security industry. I greatly appreciate our cooperation. I am glad that after more than two years we are meeting again at IDET. We see what the covid pandemic made us face, and that the security, armed and rescue services must be prepared to meet these new challenges. Without cooperation with the Czech defence industry as our strategic partner, we would not be able to complete this development and modernization.

Karel Havlíček

Deputy Prime Minister, Minister of Industry and Trade and Minister of Transport of the Czech Republic

Each country is as self-confident as it is capable of being independent, self-sufficient and being able to defend itself against any threats. That is why it is extremely important to further strengthen spending on our defences and our armed forces, and I am very pleased that we have been doing well in recent years.

Jakub Kulhánek

Minister of Foreign Affairs of the Czech Republic

I am very happy to be here at the IDET fair this year. The security and defence industry is special and we are well aware that the more we are able to export abroad, the greater will not only be of economic benefit, but at the same time our state and its components will be better prepared for crisis situations.

Aleš Opat

Chief of the General Staff of the Czech Armed Forces

IDET has two fundamental meanings for us. On the one hand, we want to show people where the armed forces has moved since the last IDET, which was before the covid-19 pandemic, in terms of technology and other things. We are really proud of that. The second thing is that any such exhibition of military technology and security is important for maintaining know-how and continuity. This is why IDET is absolutely crucial for us.

Jiří Hynek

President of the Defence and Security Industry Association
of the Czech Republic

I am very happy that this year's IDET is taking place, because we are sending a signal to the world that we are returning to normality and we are starting to do business live again. When it comes to a foreign customer, there is no alternative to a face-to-face meeting. That is why we now have to catch up very quickly on what we have missed because of covid, and IDET is an ideal opportunity to meet foreign delegations and show them what we can do and what is new in our industry.

Shahar Rachela Horev

SIBAT (Ministry of Defence of Israel), Deputy Director

The opening of the first Israeli national pavilion at this Czech defence industry trade fair is a step towards further strengthening security relations. We see great potential for defence cooperation in the areas of unmanned aerial vehicles, air defence, missile systems and cyber systems. We thank the Czech Ministry of Defence for their trust in our defence system and we will continue to work together to strengthen relations and maintain the security interests of both our countries.

INTERNATIONAL DELEGATIONS

IDET 2021

NEW THEMES AT IDET 2021

START-UP INNOVATION PAVILION

The Start-up Innovation Pavilion – a display of five innovative companies – had its première at the fair. It was organized by the Defence and Security Industry Association of the Czech Republic with the aim of introducing the high potential of start-up companies and connecting them with larger partners.

3D PRINTING

3D printing was also a new topic this year, presenting printing solutions for components for the defence industry, such as metals or composite materials for the development of prototypes and production of spare parts.

IDET ARENA 2021

Live demonstrations of military, fire-fighting and police equipment

Presentation of the Armed Forces of the Czech Republic

EXHIBITORS' VIEW

**Czechoslovak Group,
Lukáš Novotný, marketing manager**

The fair was a success. There are many important companies, many visitors who were interested in our products both in outdoor and indoor areas. We are glad that we are here and we rate the fair as successful.

**General Dynamics European Land Systems,
Thomas Strasser, Director of International Trade
and Services**

We are glad that we can introduce ourselves here as a company that has been cooperating with the Czech industry for a long time. There is great potential for the production of unmanned aerial vehicles in the Czech Republic.

**Lockheed Martin, Dennis Göge, Vice President,
Central and Eastern Europe**

We really enjoy the fair and we are pleased to meet all representatives of Czech industry or ministries who have arrived at the event. Many customers are interested in our products.

**LOM Praha, Jitka Šuláková,
marketing and PR administrator**

We are very satisfied with the fair. After a long covid break, it's about improving everyone's mood. Attendance was high. Everything was perfect.

**AGADOS, Ivo Uchytíl,
Head of Sales**

I must say that I am pleasantly surprised by the number of inquiries and the number of visitors who are interested in our products. The fair definitely met our expectations.

**Rheinmetall, Oliver Mittelsdorf,
Senior Vice President Sales**

I'm glad to see so many people here, it's really full. My whole team, all the traders, are happy to be at IDET again. The most important thing for us is to meet customers from Central Europe. We are doing well here. We are happy again in the Czech Republic and we are very happy to be back in Brno.

EXHIBITORS' VIEW

STV Group, Mikuláš Klang, press spokesman

The IDET 2021 trade fair has been very successful for us. We were constantly busy with customers. The organization was excellent. From a social point of view, it was a return to normality and a sign that things were going back on the right track, where every business is built on personal ties. It is certainly a good thing that IDET is taking place this year and we can meet our current and potential partners here.

EVPÚ Defence, Patrik Hlůšek, sales director

We are very surprised how many visitors there are in here. There were a lot of delegations from the armed forces, generals dropped by, the Czech Minister of the Interior or the Czech Minister of Defence, as well as foreign delegations.

Česká zbrojovka, David Basovník, CZ Export Praha

We are glad that the fair took place after the break, that we were able to welcome our current and possible future business partners. I dare say that our stand was the focus of great customer interest, we presented a portfolio of our weapons designed for members of armed forces.

LPP, Miroslav Žížka, company executive

This is the first presentation of the company LPP at the IDET trade fair and we are very surprised. The interest was really enormous.

Vladimír Vlček, General Director of the Fire and Rescue Service of the Czech Republic

The PYROS trade fair is a space where both exhibitors and the Fire Rescue Corps and volunteer fire brigade units can show the general public where they are at the moment and where they would like to arrive.

Police of the Czech Republic, Petra Hrůzová, spokesperson for South Moravian police officers

The interest is really great. We have a recruitment center where visitors can find out all the information on what to do to put on their uniforms and become a police officer.

Mototruck, Radek Pilař, Sales Director

We see this PYROS fair positively in general. We have presented a new product here and it makes us happy.
